

## Field System Machining Adds Territory Manager for Ohio Valley Region

*Valued Clients in Region Have Dedicated Local Service*

For Immediate Release

SOUTH ELGIN, Ill. /EWorldWire/June 24, 2010 --- Field System Machining (<http://www.fieldsystems.com>), the field machining, turbine overhaul and mill machinery repair pioneer, welcomes Walt Kennedy as Ohio Valley Region, Area Field Manager. Kennedy's territory includes Indiana, Kentucky, and Southern Ohio. Coverage includes Evansville, Indianapolis, Muncie, Marion, Fort Wayne, Terre Haute, Louisville, Lexington, Columbus, Dayton, and Cincinnati. His responsibilities include turbine overhaul, steam path repair and field machining project site inspections at power plants, paper mills, steel mills, extrusion plants and other target manufacturing facilities.

Kennedy brings to Field System Machining over 25 years of territory management expertise including previous management positions with GE International, Ingersoll-Rand and Allis-Chalmers.

"We are delighted with the addition of Walt to our team," said Tony Piwowarczyk, Field System Machining's business development director. "We value the relationships we have developed with our Ohio Valley Region customers over the past 32 years, and Walt allows us to provide a personal, local level of service, which our clients appreciate."

Kennedy holds a marketing degree from the University of Louisville and attended Parks College of Aeronautics while serving in the U.S. Air Force as a flight engineer. He and his wife reside in Clarksville, Ind.

About Field System Machining (<http://www.fieldsystems.com>)

Founded in 1978, Field System Machining has provided field machining and turbine overhaul solutions to the power, steel, pulp, paper, chemical, petrochemical, pharma, food, steel, aluminum, plastic, forging, defense, and press manufacturing industries.
