

Field System Machining Adds Territory Manager in Western States

Valued Clients in Region Now Have Dedicated Local Service

For Immediate Release

SOUTH ELGIN, III./EWorldWire/July 1, 2010 --- Field System Machining (<http://www.fieldsystems.com>), pioneers of the field machining, turbine overhaul and mill-machinery-repair world, welcomes R.H. Borden and Company LLC as its area representatives for Utah, Wyoming, Colorado and Idaho. Field System Machining's services include turbine overhaul, steam path repair and field machining repairs at power plants, paper mills, steel mills, extrusion plants and other target manufacturing facilities.

R.H. Borden and Company LLC brings over 25 years of territory and sales management expertise to Field System Machining. President Bob Borden spent over 20 years with Thatcher Chemical Company in management positions such as corporate sales manager and product line manager as well as heading special projects assignments.

"We are ecstatic about the addition of R.H. Borden and Company LLC to our team," said Tony Piwowarczyk, Field System Machining's business development director. "We value the relationships we have developed with our western region customers over the past 32 years, and Bob allows us to provide a personal, local level of service, which our clients will appreciate," said Piwowarczyk.
